SONOR DRUMS

WELCOME

CONTENTS

Why has Sonor been making drums of the highest quality, instruments unrivalled in their class, for more than 130 years?

> The answer is you!

You and the world wide drum community, who for decades have trusted the outstanding quality and sound of Sonor drums.

Welcome to Sonor drums. With the aid of this catalog, you can get a glimpse into the unique sound of Sonor drums. On the pages that follow, you can learn everything about the latest sounds, designs, colors and innovations we have made to our products.

In this 2007 catalog, we offer you an overview of our six drum series and highlight the features and technology involved. Get to know our drums and find the drum set that's right for you.

We know you will have fun browsing through this catalog and dreaming up your own individual Sonor drum set and sound.

THE RELIABLE, PROFESSIONAL SET FOR OPEN SOUNDS FULL OF ENERGY

DELITE SERIES

The Sonor Delite Series is designed for the professional drummer with clear ideas about equipment, features and sounds. These very ideas and experiences, along with the broad expertise at Sonor, are our main focus as we continue to develop and steadily optimise the Sonor Delite Series. The shell design, with its extremely thin and consequently very light vintage maple shells, make Sonor Delite sets an extremely welcome tour companion, a companion no drummers would wish to go without.

Sonor Delite Sounds

The trademark of the Sonor Delite Series is the sound spectrum provided by the extremely thin vintage maple shells. These give a Sonor Delite set an unmistakably open sound and an enormously wide range for practically all styles of music. The sound characteristics of the individual shells are characterized by a soft, warm tone that highlights the lower pitches and provides balance in the mid-range and treble.

Batter and Resonance Heads – Made by REMO USA

Tom Tom: Sonor Clear Medium
 Snare Drum: Sonor White Medium
 Sonor Clear Medium Resonance
 Bass Drum: Sonor Clear Power
 Bass Drum Front Heads:
 For Covering Color Surfaces:
 Sonor Black Power with white Sonor logo
 For Natural Wood Surfaces:
 Sonor White Power with black Sonor logo

Tuning Lugs with TuneSafe™ – Right in Tune, 100% of the Time!

All of our lugs are equipped with the TuneSafe™ tuning-safeguard feature, which prevents tension screws from loosening during hard rim shots or where batter heads have been loosely tuned. The new square tension screws with fine-pitch threads guarantee optimum tunability. Slotted tension screws with fine-pitch threads remain available as accessories.

Tom Mounting System – Powerful Sounds Thanks to Minimal Shell Contact!

The vibration-free T.A.R. system (*Total Acoustic Resonance*) with APS provides for maximum resonance and sustain.

APS – Advanced Projection System

The Sonor tom mounting system, the bass drum hoop, bass drum and floor tom legs all come equipped with special APS rubber insulators that prevent direct contact between the metal parts and the wooden shells. This gives the drums a more dynamic, more precise sound.

Bass Drum Bracket – It's Yours to Decide!

The standard Delite Series bass drum is delivered without a bracket. You may order one as an option, however.

Power Hoops – Clean Tuning and Crisp Attack!

2.3 mm Sonor Power Hoops on all tom toms and floor toms. 14" snare drums are equipped with chrome-plated die-cast hoop rims.

Sonor Delite Shell Design

Extra thin shells of North American maple with reinforcing rings (Sonor Vintage model). Shells deliver maximum strength, perfect curving and neutral tuning, thanks to tension-free cross lamination of the individual layers of wood (CLTF Cross Laminated Tension Free Process).

Sonor Delite Shell Thicknesses

9 layers for tom toms, floor toms and snare drum =
 4 mm + 2 mm Dynamic Edge reinforcement rings at the edge of the shells
 12 layers for bass drums =
 6 mm + 2 mm Dynamic Edge reinforcement rings at the edge of the shells

Bass Drum Claws – Protect Your Rims!

Rubber padding beneath the bass drum claws protects the wooden rim against damage.

Bass Drum Spurs – Quick and Easy Set-Up!

Position clamps (Memory Locks) 'remember' the bass drum spur height you chose.

Bass Drum Legs – On Solid Footing, Everywhere You Go!

The bass drum legs can be turned around so that they rest on either the rubber or the metal end and can be adjusted using a fastening screw.

S CLASSIX SERIES

THE NEW SONOR CLASSICS

Sonor S Classix Shell Design

Thin shells made of Scandinavian birchwood (thin birch shell)
 These shells deliver maximum strength, perfect curving and neutral tuning, thanks to tension-free cross lamination of the individual layers of wood (CLTF Cross Laminated Tension Free Process).
 The film surface finishes are adhered across the entire surface of the shell for perfect looks and natural sound.

Sonor S Classix Shell Thicknesses

9 layers for tom toms, floor toms and snare drums = 5 mm
 12 layers for bass drums = 6 mm (medium shell)

The new Sonor S Classix Series is designed for advanced and professional drummers alike, and for admirers of the classic Sonor looks of the 1960's and 1970's. Combined with the very latest features and timeless retro finishes, the Sonor S Classix set is becoming the centrepiece of the Sonor drum series. With an extensive range of individual components to choose from, the S Classix series offers everything you could want in a genuine Sonor drum series.

Sonor S Classix Sounds

With its thin birch shells made of Scandinavian birchwood, this series offers a convincingly pithy and compulsive sound with powerful treble and mid-range pitches and well-balanced deep tones.
 Whether it's classic '60s beat, monster '70s grooves or modern performance – with a Sonor S Classix set, you're equipped for anything.

Tom Mounting System – Powerful Sounds Thanks to Minimal Shell Contact!

The vibration-free T.A.R. system (*Total Acoustic Resonance*) with APS provides for maximum resonance and sustain.

APS – Advanced Projection System

The Sonor tom mounting system, the bass drum hoop, bass drum and floor tom legs all come equipped with special APS rubber insulators that prevent direct contact between the metal parts and the wooden shells. This gives the drums a more dynamic, more precise sound.

Bass Drum Bracket – It's Yours to Decide!

The standard S Classix Series bass drum is delivered without a bracket. You may order one as an option, however.

Power Hoops – Clean Tuning and Crisp Attack!

2.3 mm Sonor Power Hoops on all snare drums.
 14" snare drums with chrome-plated die-cast hoop rims are available as an option.

Bass Drum Claws – Protect Your Rims!

Rubber padding beneath the bass drum claws protects the wooden rim against damage.

Bass Drum Spurs – Quick and Easy Set-Up!

Position clamps (Memory Locks) 'remember' the bass drum spur height you chose.

Bass Drum Legs – On Solid Footing, Everywhere You Go!

The bass drum legs can be turned around so that they rest on either the rubber or the metal end and can be adjusted using a fastening screw.

Batter and Resonance Heads – Made by REMO USA

Tom Tom: Sonor Clear Medium
 Snare Drum: Sonor White Medium
 Sonor Clear Medium Resonance

THE COOL WAY TO JOIN THE PROFESSIONALS

FORCE 3007

Sonor Force 3007 Shell Design

Shells deliver maximum strength, perfect curving and neutral tuning, thanks to tension-free cross lamination of the individual layers of wood (CLTF Cross Laminated Tension Free Process).

Sonor Force 3007 Shell Thicknesses

9 layers for bass drums, tom toms, floor toms and snare drums = 7 mm

The Sonor Force 3007 series is the top model of the new Force range, a line of drums designed especially for both beginners and advancing drummers, but that can also be an interesting alternative for semi-professional drummers.

A wide array of pre-configured sets, components and the very latest features from the professionals' series make Sonor Force 3007 sets a real price-performance hit.

Force 3007 Sounds

The 9-layer maple shells offer an uncompromisingly rich and warm sound, highlighting lower pitches and providing balance in the mid-range and treble. Whether in the practise room, the recording studio or on stage, a Force 3007 set won't let you down and ensures that you will always get through with the right level of power.

Tom Mounting System – Powerful Sounds Thanks to Minimal Shell Contact!

The vibration-free T.A.R. system (*Total Acoustic Resonance*) with APS provides for maximum resonance and sustain.

Bass Drum Claws – Protect Your Rims!

Rubber padding beneath the bass drum claws protects the wooden rim against damage.

Bass Drum Spurs – Quick and Easy Set-Up!

Position clamps (Memory Locks) 'remember' the bass drum spur height you chose.

Bass Drum Legs – On Solid Footing, Everywhere You Go!

The bass drum legs can be turned around so that they rest on either the rubber or the metal end and can be adjusted using a fastening screw.

Short Tom Sizes – Full Sustain and Quick Response!

The new Sonor Force tom toms with 'short' shells offer controlled sustain and give the drums a crisp attack.

Tune Safe™

400-Series Hardware Set – Reliable and Sturdy 'On the Road'!

The new hardware 400 series provides solid double tubing for maximum stability and reliability. The Sonor 3-segment clamp offers maximum support for very little effort – whether for jazz music or heavy drumming.

Tuning Lugs with TuneSafe™ – Real Eye-Catchers, with Sonor Design!

The new Sonor Force tuning lugs with fine-pitch threads are equipped with the TuneSafe™ tuning-safeguard feature, which prevents tension screws from loosening.

Bass Drum Bracket – Smooth and Snug!

The standard Force Series bass drum is supplied with this bracket. The inner workings of the bracket are compelling, thanks to smooth yet firm application of pressure.

17.5" Deep Bass Drum – For More Power and Rich Bass Drum Sounds!

Pre-Muffled Bass Drum Heads – For Just the Right Kick!

Pre-muffled batter and resonance heads on the bass drum provide 'all-round' powerful sounds and dynamic 'kicks'. Sonor heads made by REMO.

Individual Components – For Enhanced Set-Ups!

The large selection of individual components provide perfect additions for an even bigger performance – perfect for live gigs involving different configurations.

JUNGLE SET

A drum set, and not just for kids! A compact drum set with big sound. The Sonor Force 3007 Jungle Set is constructed of maple shells. With a bass drum with lacquered wooden hoops, short-size toms and the new tuning lugs in Sonor design, the Jungle Set has been expanded and updated.

The ideal club and tour set for drummers looking for a compact, ready-to-play, easy-to-transport set. Ideal for the modern 'in' beats. And – still big enough for heaps of fun!

OPTIMUM PLAYING COMFORT WITH PROFESSIONAL FEATURES

FORCE 2007

The Sonor Force 2007 Series is designed for advanced drummers who do not want to sacrifice any of their musical freedom. Four pre-configured sets and 12 individual components offer an unlimited selection for a drummer's own individual configuration.

Sonor Force 2007 Sounds

The 9-layered birchwood shells are the superb foundation for Sonor Force 2007 Sets. A hefty and dynamic sound, with accentuated mid-ranges and highs, and defined lows, are the hallmark of these shells. With the high-gloss-lacquered natural wood surfaces, the Sonor Force 2007 really puts itself into the limelight.

Tom Mounting System – Powerful Sounds Thanks to Minimal Shell Contact!

The vibration-free T.A.R. system (*Total Acoustic Resonance*) provides for a maximum of resonance and sustain. With the tried-and-tested 'Ball Clamp' system with individual tom arms, the tom toms can be positioned wherever the drummer wishes.

Short Tom Sizes – Full Sustain and Quick Response!

The new Sonor Force tom toms with 'short' shells offer controlled sustain and give the drums a crisp attack.

Bass Drum Legs – On Solid Footing, Everywhere You Go!

The bass drum legs can be turned to convert them from rubber to metal, and adjusted using a fastening screw.

Tuning Lugs with TuneSafe™ – Real Eye-Catchers with the Sonor Design!

The new Sonor Force tuning lugs with fine-pitch threads are equipped with the TuneSafe™ tuning safeguard feature, which prevents tension screws from loosening.

Pre-Muffled Bass Drum Heads – For Just the Right Kick!

Pre-muffled batter and resonance heads on the bass drum provide 'all-round' powerful sounds and dynamic 'kicks'. Sonor heads made by REMO.

Bass Drum Bracket – Smooth and Snug!

The standard Force Series bass drum is supplied with this bracket. The inner workings of the bracket are compelling, thanks to smooth yet firm application of pressure.

Individual Components – For the Enhanced Set-up!

The large selection of individual components is the perfect addition for an expanded performance – perfect for each drummer's own individual configuration.

Hardware 200 Set – Reliable and Now Even Better!

The new 5-piece Hardware 200 Set with two mini boom stands for a professional look. The solid double tubing provides optimum reliability. The Sonor 3-section clamp™ offers maximum support for very little effort – whether for jazz or heavy drumming.

THE BEST FOR THE SOUND-CONSCIOUS BEGINNER

FORCE 1007

The Sonor Force 1007 Set – designed especially for beginners at an uncompromisingly attractive price. Extremely interesting for all up-and-coming rockers, jazz drummers, enthusiasts of metal or of the blues ... looking for a drum set that is sturdy, yet versatile.

Sonor Force 1007 Sounds

The 9-layer basswood shells of the Sonor Force 1007 Sets are characterised by a full-bodied, balanced sound with lots of power up front.

Short Tom Sizes – Simple Tuning, Short Shell!

The new Sonor Force 1007 tom toms with 'short' shells generate a controlled pitch and can be positioned lower and easier-to-reach in a 'beginner's' set.

Bass Drum Legs – On Solid Footing, Everywhere You Go!

The bass drum legs can be turned to convert them from rubber to metal, and adjusted using a fastening screw.

Hardware 200 Set – Reliable and Now Even Better!

The new 5-piece 200-Series Hardware Set with two mini boom stands for a professional look. The solid double tubing provides optimum reliability. The Sonor 3-section clamp™ offers maximum support for very little effort – whether for jazz or heavy drumming.

Tuning Lugs with TuneSafe™ – Real Eye-Catchers with the Sonor Design!

The new Sonor Force tuning lugs with fine-pitch threads are equipped with the TuneSafe™ tuning safeguard feature, which prevents tension screws from loosening.

17.5" Deep Bass Drum – For More Power and Rich Bass Drum Sounds!

Pre-Muffled Bass Drum Heads – For Just the Right Kick!

Pre-muffled batter and resonance heads on the bass drum provide 'all-round' powerful sounds and dynamic 'kicks'. Sonor heads made by REMO.

Sonor Force 1007 Shell Design

The basswood shells deliver maximum strength, perfect curving, and neutral tuning thanks to tension-free cross-lamination of the individual layers of wood (CLTF Cross Laminated Tension Free Process). The film finish is very sturdy and long lasting, and the workmanship is impeccable.

FORCE 507

OFF TO THE RIGHT START

The Sonor Force 507 Set is designed for beginners taking their first steps into the drum community. With its unbeatable price-performance ratio, the Sonor Force 507 set is the hallmark of long-lasting musical pleasure, at a small price.

Force 507 Sounds

Because beginners shouldn't have to hide from the major players, the 9-layer basswood shell of the Sonor Force 507 Sets offers the needed punch to keep the beginning drummer from falling by the musical wayside.

Short Tom Sizes – Simple Tuning, Short Shell!

The new Sonor Force 507 tom toms with 'short' shells generate a controlled pitch and can be positioned lower and easier-to-reach in a 'beginner's' set. A quicker way to join the world of drumming.

Bass Drum Legs – On Solid Footing, Everywhere You Go!

The bass drum legs can be turned to convert them from rubber to metal, and adjusted using a fastening screw.

Pre-Muffled Bass Drum Heads – For Crisp Sounds!

Pre-muffled batter and resonance heads on the bass drum provide 'all-round' powerful sounds.

Tuning Lugs with TuneSafe™ – Unbeatable Features, Right from the Start!

The new Sonor Force tuning lugs are equipped with the TuneSafe™ tuning safeguard feature, which prevents tension screws from loosening. And particularly for the beginner, this means: it keeps the 'mood' even longer.

Double Tom Holder – Sturdy and Individually Tailored!

With the tried-and-tested 'Ball Clamp' system, the tom toms can be securely positioned wherever the drummer wishes.

Double-Tubed Hardware – Sturdy and Steady!

Sonor Force 507 Shell Design

The basswood shells deliver maximum strength, perfect curving, and neutral tuning thanks to tension-free cross-lamination of the individual layers of wood (CLTF Cross Laminated Tension Free Process). The film finish is very sturdy and long lasting, and the workmanship is impeccable.

ARTIST SERIES

THE VERY BEST SNARES

The exclusive Sonor Artist Snare Series combines the experience of the most professional drummers in the world with the extensive percussion-instrument-making expertise of Sonor. This co-operative arrangement has produced unparalleled snare drum models that measure up to even the most stringent demands placed on this instrument.

From brass to steel or bronze, from maple to beech and birch, each and every one of our Artist Snare Drums is a masterpiece in its own right. And it was not just sound but also design that played an enormously major role in the development, giving each Artist Snare Drum its own unmistakable character.

See for yourself on the following pages, or visit your Sonor instrument dealer to experience the tremendous quality of Sonor Artist Snares.

AS 07 1205 AD in 10257 Art Design

A 12-ply birch shell with 12" x 5" size gives this snare drum a crisp, bright sound with plenty of attack. Whether using it as the main drum or as a side snare drum, the high pitched rim shots and sensitive response of the stainless steel snares ensure a perfect sound performance. Perfect also for the short breaks in drum'n bass, hip hop or electronic pop.

12" x 5" Artist Snare Drum, Art Design Finish, 12-ply Birch shell, 7 mm shell thickness, high gloss laquer finish, 16 tension rods, TuneSafe™, throw-off snare action, chrome plated fittings with finish protectors, 18 steel wires

AS 07 1305 EA in 10309 Earth

The main feature of this Artist Snare Drum is the massive, 27-layered (and hence 28 mm thick) beechwood shell; this gives the snare a particularly substantial, 'hefty' sound. It is deep, with lots of 'stomach', and yet transparent at the same time. Very well suited for funk, fusion, jungle or electronic beats. The fittings in fine gold finish, combined with the highly lustrous lacquer finish, are a real eye-catcher.

13" x 5" Artist Snare Drum, Earth Finish, 27-ply Beech shell, 28 mm shell thickness, high gloss laquer finish, 16 tension rods, TuneSafe™, throw-off snare action, gold plated fittings with finish protectors, 18 brass wires

AS 07 1405 MB in 10323 Scandinavian Birch

With its thin Vintage Maple Shell, this Artist Snare Drum offers excellent resonance and a clear, transparent sound. The classic Scandinavian Birch finish and the golden fittings give the drum an extraordinarily fine-finished look. The very warm and rich sound characteristics make it the ideal snare drum for a very wide variety of musical styles.

14" x 5" Artist Snare Drum, Scandinavian Birch, 6-ply Vintage Maple shell, 4 mm shell thickness plus 2 mm Dynamic Edges, matt laquer finish, single flange hoops, 20 tension rods, Tune-Safe, throw-off snare action, gold plated fittings with protectors, 18 bronze wires

ARTIST SERIES

14" x 6" Artist Snare Drum, Cottonwood Finish, 9-ply Medium Maple shell, 6 mm shell thickness, matt lacquer finish, die-cast hoops, 20 tension rods, TuneSafe™, throw-off snare action, chrome plated fittings with finish protectors, 24 steel wires

14" x 5" Artist Snare Drum, Brass, Brass shell, 1 mm shell thickness, protection lacquer, die-cast hoops, 20 tension rods, TuneSafe™, throw-off snare action, gold plated fittings with finish protectors, 24 brass wires

14" x 5" Artist Snare Drum, Chrome, Steel shell, 1 mm shell thickness, protection lacquer, 20 tension rods, TuneSafe™, throw-off snare action, black plated fittings with finish protectors, 2 x 8 steel wires

AS 07 1406 CM in 10297 Cottonwood Maple

Perfect as an all-round snare drum this model features a 9-ply maple light shell, a unique CM Cottonwood Satin finish and die-cast chrome plated rims. Producing a warm and full tone with a harmonic frequency range it also offers a very clear attack sound and sensitive response due to the stainless steel snares.

AS 07 1406 BRB Bronze Black

The heavyweight of the Artist Series is made of a cast bronze shell with 6" depth. Similar to cymbal making the shell is made of one piece of bronze to ensure best resonance and full projection. Offering a maximum of sound volume this drum is best suited for any musical situation that requires a cutting, loud and powerful sound character.

14" x 6" Artist Snare Drum, Bronze, Bronze shell, 3 mm shell thickness, protection lacquer, die-cast hoops, 20 tension rods, TuneSafe™, throw-off snare action, black plated fittings with finish protectors, 24 bronze wires

AS 07 1405 BG Brass Gold

The best choice for drummers looking for explosive, bright sound characteristics with a high level of force and emphatically soft shading. A broad spectrum, with sensitive response for all playing dynamics, are other trademarks of this snare drum. All of the fittings are in gold finish, giving the drum an exclusive look.

AS 07 1307 AM in 30009 Amboina

The latest addition to the Artist Snare Programme is the highly select 13" x 7" Amboina Snare. Constructed using a thin Vintage Maple Shell, this snare drum embodies the full perfection found in Sonor percussion-instrument construction. The sound spectrum ranges from sensitive moments to brute force, characterizing this all-rounder with a soft, warm tone emphasising lower pitches while providing balanced mediums and highs. With one of the finest and highest-quality wooden surfaces, Amboina veneer, and the golden fittings, this snare drum is a breathtaking eye-catcher.

13" x 7" Artist Snare Drum, Amboina Finish, 6-ply Vintage Maple shell, 4 mm shell thickness plus 2 mm Dynamic Edges, high gloss lacquer finish, 16 tension rods, TuneSafe™, throw-off snare action, gold plated fittings with finish protectors, 18 brass wires

AS 07 1405 SB Steel Black

The heart of this Artist Snare Drum is a chromium-plated shell of stainless steel. A perfect snare drum for studio work, and for rock and funk drummers as well. Excellent rim shot sounds, a rich tone, and a broad spectrum of medium-range and high pitches are the distinguishing features of this instrument. The shell is coated with a special protective lacquer, and the rims and fittings come in fine black plating finish.

SoundWire is Sonor's answer to all drum enthusiasts looking for new ways to enhance their snare drum sound. With 3 different materials – steel, brass, and bronze –, 24 different variations of snare wires, and the option of string or strap mount the SoundWire program offers a wide variety of choices. Each SoundWire set of snares comes in an attractive wooden box that ensures best protection.

Sonor SoundWire snares feature specially designed end plates that ensure perfect snares-to-head contact. Round shaped edges of the plates prevent the heads from being damaged when tightening the snares.

Sample: SW 1318 S

Sample: SW 1316/2 B

Sample: SW 1318 MS 06

Steel Snare Wires

- SW 1018 S** for 10", 18 Wires \varnothing 0.5 mm
- SW 1218 S** for 12", 18 Wires \varnothing 0.5 mm
- SW 1318 S** for 13", 18 Wires \varnothing 0.5 mm
- SW 1418 S** for 14", 18 Wires \varnothing 0.5 mm
- SW 1424 S** for 14", 24 Wires \varnothing 0.5 mm
- SW 1316/2 S** for 13", 2 x 8 Wires \varnothing 0.5 mm
- SW 1416/2 S** for 14", 2 x 8 Wires \varnothing 0.5 mm

Stainless Steel Snare Set

These are typical "all-round" snares. The alloy of the 0.5 mms strong snares containing V2A steel with 12% chrome ingredient features a tensile strength of 1800/2000 N/mm*. This makes these snares the strongest within the Sonor SoundWire range for the most demanding players. They offer precise attack and a high dynamic range.

*N/mm = 1 kg = 9.8 N tensile strength/mm

Bronze Snare Wires

- SW 1018 B** for 10", 18 Wires \varnothing 0.5 mm
- SW 1218 B** for 12", 18 Wires \varnothing 0.5 mm
- SW 1318 B** for 13", 18 Wires \varnothing 0.5 mm
- SW 1418 B** for 14", 18 Wires \varnothing 0.5 mm
- SW 1424 B** for 14", 24 Wires \varnothing 0.5 mm
- SW 1316/2 B** for 13", 2 x 8 Wires \varnothing 0.5 mm
- SW 1416/2 B** for 14", 2 x 8 Wires \varnothing 0.5 mm

Bronze Snare Set

The bronze alloy consists of 93% copper and 7% tin. The 0.6 mms strong snare strands feature 1000/1300 N/mm* tensile strength and are still classified as "soft" due to their elasticity. This allows for a longer decay of the snare vibration. The snare sound has reduced overtones and can be describe as mellow. These snares are ideally suited for orchestral use and for the playing with brushes or rods.

Brass Snare Wires

- SW 1318 MS 05** for 13", 18 Wires \varnothing 0.5 mm
- SW 1318 MS 06** for 13", 18 Wires \varnothing 0.6 mm
- SW 1418 MS 05** for 14", 18 Wires \varnothing 0.5 mm
- SW 1418 MS 06** for 14", 18 Wires \varnothing 0.6 mm
- SW 1424 MS 05** for 14", 24 Wires \varnothing 0.5 mm
- SW 1424 MS 06** for 14", 24 Wires \varnothing 0.6 mm
- SW 1316/2 MS** for 13", 2 x 8 Wires \varnothing 0.5 mm
- SW 1416/2 MS** for 14", 2 x 8 Wires \varnothing 0.5 mm

Brass Snare Set

Brass is an alloy consisting of 64.5% copper and 35.5% zinc. The 0.5 mms strong snare strands are cold molded thus reaching a maximum of tensile strength and hardness (950/1200N/mm*), with reduced elasticity. At a given tension these snares produce brilliant, crisp snare sounds with defined short attack.

GIANT STEP

MAXIMUM SPEED AND POWER

The Sonor Giant Step Bass Drum Pedals are just the right tool for discriminating drummers unwilling to sacrifice any of their musical freedom. As a state-of-the-art pedal, Giant Step Pedals deliver optimum feel for the music, along with speed and handling. The extraordinary design concept and the numerous enhancement options make the Giant Step a class unto itself.

From the Target Point foot board design to the docking station, every aspect of the Giant Step range has been designed with utmost care and attention to detail.

A choice of Twin Effect, Single, Double, Triple and Middle Pedals allows every drummer to find the perfect 'Giant Step' for his individual requirements.

Beater Cams – Infinitely Variable, Independent Tilt

The angle of the beater cams can be adjusted independently without changing the position of the boards.

Spring Mount – Independent Spring Connector Setting

Equipped with high speed needle bearings the spring mounts can easily be exchanged for the use of alternative types of springs.

Rotation Pendulum – Unlimited Power Delivery

The "rotation pendulums" with roller bearings work without any loss of energy and allow for maximum action and dynamics.

Power Rod – The Heel Trick

A power rod with ball bearings transmits the action from the heel board with high precision and without loss of energy into a kick action.

Docking Station – Installation is Child's Play

The docking station¹ is mounted to the bass drum hoop and stays there.

Targets – Perfectly Adaptable

In order to allow for an ideal playing positioning the playing height of the target can be adjusted independently. This gives a perfect balance of foot and pedal.

Splitboard – No Separation Anxiety

Four high speed roller bearings which are integrated into a cross-beam "split" the "board" at this position.

Smart Connect System – The Flexible Pedal Attachment

The "Smart Connect" System ensures a quick and effortless attachment of the pedal with an adjustable ball clamp through a firm lever mechanism. A cylindrical axle connection neutralizes any possible tensions through different bass drum angle positions.

Docking Station

Twin Effect Pedal² – Double-Bass Action with One Foot

The revolutionary design of the top of the range Giant Step model offers drummers a completely new dimension in bass drum technique. With its dual action mechanism you can play rhythmic patterns that were never before possible with one pedal. Highest standards in manufacturing processes and select materials ensure outstanding playing feel, durability and versatile adjustments.

GTEP 3 Twin Effect Pedal

GSP 3 Single Pedal

1) US pat. 6.632.990
2) US pat. 6.417.433

GIANT STEP

Double Pedal – Just Even Faster

This demonstrates the modular system of the Giant Step Series. Separate modules of Single and Twin Effect Pedal make up the Double Pedal which features an extremely smooth action. The connecting axle is length adjustable. The high quality cross joints are covered by rubber housings.

Anti Slip Rubber – There's No Escape

Secure hold on any surface. The bass drum plate has an anti-slip rubber profile with self-adhesive velcro.

Triple Pedal – Triple-Bass Action

The Triple Pedal is a combination of Twin Effect Pedal and Double Pedal, allowing for Twin Effect and Double Bass Drum playing technique.

Middle Pedal – Perfect at Centre Stage

The Giant Step Middle Pedal is a new Double Pedal with perfect symmetrical action. This allows for flexible setups with an ideal center position of the snare drum and enhances playing technique significantly. It allows for more flexible drum set ups and improves positioning of pedals and drums as well.

Giant Step Middle Pedal Connecting Rods

All Giant Step pedals are equipped with a chain drive. An exchangeable strap is included as well.

As an option, straps, chains, springs, and beaters are also available.

Giant Step Bag – Complete Protection / Safe Transport

All Giant Step Pedals are supplied standard with a heavy duty nylon carrying bag.

HARDWARE
INTRO

600 SERIES

600 Series

The Premium Hardware at Sonor. Maximum reliability, optimum handling, lots of individual components and super-professional down to the last detail.

The standard 600-series hardware comes equipped with the secure-fastening Sonor wing screws. The flat designer-style Easy-Grip adjustment knobs are optionally available as accessories.

**400 Series**

Professional and absolutely 'road-ready' hardware with good ease of operation and at an unbeatable price. Comes with lots of individual components.

200 Series

The basic Sonor hardware series, offering good handling and a professional appearance. The standard with lots of grip for added playing confidence.

100 Hardware Series

The very light hardware – for the discerning beginner, or if the aim is to have 'less to carry'.

3-Section Clamp™ – Enormous Support for Very Little Effort

The 3-section clamp™ can spread the force around three sides of a stand rod in a way that no other clamp can. This means it can be secured with just a small amount of effort.

CBS 672 Cymbal Boom Stand,
400 mms boom arm length,
360° rotation

MBS 673 Mini Boom Stand
with retractable boom arm

**Retractable Boom Arm - Two in One**

Completely retractable cymbal boom arm converts the mini boom stand into a regular straight cymbal stand.

Adjustable Leg - Adjusts to Fit Every Configuration

The independently adjustable base leg of the hardware 600 suits a drummer's own individual set-up.

HARDWARE 600 SERIES

Bottom Cymbal Tilter – Secure-Fastening
Massive and Flexible
7-step, very easy to operate cymbal tilter
