WELCOME

SONOR – EXCELLENT ENGINEERING AND CRAFTSMANSHIP MADE IN GERMANY, SINCE 1875

The history of SONOR mirrors the excitement of historical and entrepreneurial challenges, in the same way that rhythm is linked to musical creativity and complexity. But throughout all the decades of SONOR history there remains one underlying theme: an uncompromising commitment to quality and dedicated craftsmanship.

While the latest technology has found its way into SONOR's production methods over time, the secret of the SONOR sound remains in the meticulous attention to even the smallest detail and the commitment of its founder to always maintain the highest possible level of quality.

Only when sound is becoming a real experience, the SONOR quality standard is met. From precision craftsmanship musical expression is shaped.

Welcome to the exciting world of SONOR Drums! Have fun browsing through this catalog and learn more about the SONOR history and the wide array of Drums, Hardware, Cymbals and Accessories.

1965 Sonny Payne

1975 Phil Rudd

1975 Jack de Johnette

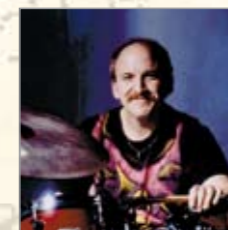

1986 Jojo Mayer

1977 Steve Smith

1988 Adam Nussbaum

1992 Danny Carey

2001 Gavin Harrison

2004 Benny Greb

2006 Chris Coleman

DELITE SERIES

THE RELIABLE, PROFESSIONAL SET FOR OPEN SOUNDS FULL OF ENERGY

The SONOR Delite Series is designed for the professional drummer with discerning ideas about equipment, features and sounds. These ideas and experiences, along with the broad expertise at SONOR, are our main focus as we continue to develop the SONOR Delite Series. The shell design, with its extremely thin and very light vintage maple shells, makes a SONOR Delite set an extremely welcome touring companion no drummer would be without.

SONOR Delite Sounds

The trademark of the SONOR Delite Series is the range provided by the extremely thin vintage maple shells. Innovative shell design gives each SONOR Delite set an unmistakably open sound and enormously wide range suited to all styles of music. The sound of the individual shells is characterized by a soft, warm tone – highlighting the lower pitches and providing balance in the mid-range and treble.

SONOR Delite Maple Shell Design

Extra thin full maple shells crafted of North American maple with reinforcing rings (SONOR Vintage shell). Shells deliver maximum strength, perfect curving and neutral tuning, thanks to the tension-free cross lamination of individual layers of wood (CLTF Cross Laminated Tension Free Process).

SONOR Delite Shell Thicknesses

9 layers for tom toms, floor toms and snare drums =
4 mm + 2 mm Dynamic Edge reinforcement rings at the edge of the shells
12 layers for bass drums =
6 mm + 2 mm Dynamic Edge reinforcement rings at the edge of the shells

Bass Drum Bracket – It's Yours to Decide!

The standard Delite Series bass drum ships without a bracket. Optional bracket is available.

Power Hoops – Clean Tuning and Crisp Attack!

2.3 mm SONOR Power Hoops on all tom toms and floor toms. 14" snare drums are equipped with chrome-plated die-cast hoops.

Tom Mounting System – Powerful Sounds Thanks to Minimal Shell Contact!

The vibration-free T.A.R. system (Total Acoustic Resonance) with APS provides maximum resonance and sustain.

APS – Advanced Projection System

The SONOR tom mounting system, the bass drum bracket, bass drum and floor tom legs come equipped with special APS rubber insulators that prevent direct contact between the metal parts and wooden shells. This gives the drums a more dynamic and precise sound.

Bass Drum Claws – Protect Your Rims!

Rubber padding beneath the bass drum claws protects the wooden rim against damage.

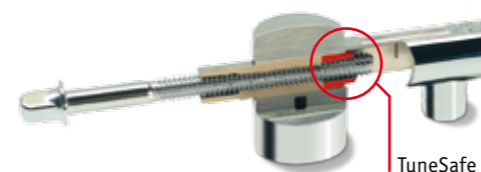

Bass Drum Spurs – Quick and Easy Set-Up!

Position clamps (Memory Locks) 'remember' your preferred bass drum spur height.

Bass Drum Legs – On Solid Footing, Everywhere You Go!

The bass drum feet can be converted from rubber to metal by turning the rubber foot. Fixing the position by a fastening screw.

TuneSafe

Tuning Lugs with TuneSafe – Right in Tune, 100% of the Time!

ALL SONOR lugs are equipped with the TuneSafe tuning-safeguard feature, which prevents tension screws from loosening during hard rim shots or where batter heads have been loosely tuned. The new square tension screws with fine-pitch threads guarantee optimum tunability.

Batter and Resonance Heads – Made by REMO USA

Tom Tom: SONOR Clear Medium
Snare Drum: SONOR White Medium / SONOR Clear Medium Resonance
Bass Drum: SONOR Clear Power
Front Head: For Solid Lacquered Surfaces:
SONOR Power Black with white SONOR logo
For Natural Wood Surfaces:
SONOR Power White with black SONOR logo

S CLASSIX SERIES

THE NEW SONOR CLASSICS

The new SONOR S Classix Series is designed for advanced and professional drummers alike, and for admirers of the classic SONOR look of the 1960's and '70's.

Combined with state-of-the-art features and timeless retro finishes, the S Classix set is becoming the centerpiece of SONOR's drum series. With an extensive range of individual components to choose from, the S Classix Series offers everything you could want in a genuine SONOR drum!

SONOR S Classix Sounds

With thin birch shells made of Scandinavian birchwood, this series offers a convincingly pithy and compulsive sound — powerful treble and mid-range pitches with well-balanced deep tones. Whether it's a classic '60s beat, monster '70s groove or modern performance — with SONOR's S Classix set, you're equipped for anything.

SONOR S Classix Birch Shell Design

Thin full birch shells made of Scandinavian birchwood deliver maximum strength, perfect curving and neutral tuning — thanks to tension-free cross lamination of the individual layers of wood (CLTF Cross Laminated Tension Free Process).

The covered finishes are adhered across the entire surface of the shell for perfect looks and natural sound.

SONOR S Classix Shell Thicknesses

9 layers for tom toms, floor toms and snare drums = 5 mm
9 layers for bass drums = 6 mm

Bass Drum Bracket – It's Yours to Decide!

The standard S Classix Series bass drum ships without a bracket. Optional bracket is available.

Power Hoops – Clean Tuning and Crisp Attack!

2.3 mm SONOR Power Hoops on all snare drums. 14" snare drums with chrome-plated die-cast hoops are available as an option.

Tom Mounting System – Powerful Sounds Thanks to Minimal Shell Contact!

The vibration-free T.A.R. system (Total Acoustic Resonance) with APS provides maximum resonance and sustain.

APS – Advanced Projection System

The SONOR tom mounting system, the bass drum bracket, bass drum and floor tom legs come equipped with special APS rubber insulators that prevent direct contact between the metal parts and wooden shells. This gives the drums a more dynamic and precise sound.

Bass Drum Claws – Protect Your Rims!

Rubber padding beneath the bass drum claws protects the wooden rim against damage.

Bass Drum Spurs – Quick and Easy Set-Up!

Position clamps (Memory Locks) 'remember' your preferred bass drum spur height.

Bass Drum Legs – On Solid Footing, Everywhere You Go!

The bass drum feet can be converted from rubber to metal by turning the rubber foot. Fixing the position by a fastening screw.

TuneSafe

Tuning Lugs with TuneSafe – Right in Tune, 100% of the Time!

All SONOR lugs are equipped with the TuneSafe tuning-safeguard feature, which prevents tension screws from loosening during hard rim shots or where batter heads have been loosely tuned. The new square tension screws with fine-pitch threads guarantee optimum tunability.

Batter and Resonance Heads – Made by REMO USA

Tom Tom: SONOR Clear Medium
Snare Drum: SONOR White Medium / SONOR Clear Medium Resonance
Bass Drum: SONOR Clear Power
Front Head: For Covered Finish Surfaces:

ASCENT SERIES

THE REVIVAL OF THE FAMOUS BEECH SHELL

The brand new SONOR Ascent Series marks the revival of the famous Beech Shell construction that has been a trademark of SONOR throughout the decades. Equipped with the latest features and technology, the Ascent Series is the perfect symbiosis between the Select Force and S Classix Series of drum sets. Any player, any style will appreciate the timeless quality and tremendous sound.

Spectacular High Quality Sparkles, Solid Lacquered Finishes and stunning Wood Veneers highlight the high end look of the Ascent Series. A feature taken from SONOR's premium line SQ2 is the black chrome hardware with certain finishes underscoring the timeless design of the Ascent Series. Get electrified with quality and sound in perfection!

Ascent Series Sounds

SONOR's design team worked closely with some of the top SONOR artists to create the proper sound. The result of this collaboration are thin Beech Shells for all Bass Drums and thick Beech Shells for Snare Drums, Tom Toms and Floor Toms. The result is a full rich tone, powerful and clear.

No matter where you take it, the woodshed, the recording studio or the stage, you'll lay down a perfect performance with the Ascent Series.

SONOR Ascent Beech Shell Design

The Beech shells deliver maximum strength, perfect curving and neutral tuning, due to the tension-free cross lamination of individual layers of wood (CLTF Cross Laminated Tension Free Process).

SONOR Ascent Shell Thicknesses

9 layers for tom toms, floor toms and snare drums = 8.75 mm
7 layers for bass drums = 6.35 mm

Power Hoops – Clean Tuning and Crisp Attack!

2.3 mm SONOR Power Hoops on all tom toms and floor toms.
14" snare drums are equipped with die-cast hoops.

Individual Components – For Enhanced Setups!

A large selection of individual components provide perfect add-ons for an even bigger performance – ideal for live gigs requiring multiple setups.

Tom Mounting System – Powerful Sounds Thanks to Minimal Shell Contact!

The vibration-free T.A.R. system (*Total Acoustic Resonance*) with APS provides maximum resonance and sustain.

Bass Drum Bracket – It's Yours to Decide!

The standard Ascent Series bass drum ships without a bracket. Optional bracket is available.

Bass Drum Claws – Protect Your Rims!

Rubber padding beneath the bass drum claws protects the wooden rim against damage.

Bass Drum Spurs – Quick and Easy Set-Up!

Position clamps (Memory Locks) 'remember' your preferred bass drum spur height.

Bass Drum Legs – On Solid Footing, Everywhere You Go!

The bass drum feet can be converted from rubber to metal by turning the rubber foot. Fixing the position by a fastening screw.

Tuning Lugs with TuneSafe – Right in Tune, 100% of the Time!

All SONOR lugs are equipped with the TuneSafe tuning-safeguard feature, which prevents tension screws from loosening during hard rim shots or where batter heads have been loosely tuned.

400-Series Hardware Set – Reliable and Sturdy 'On the Road'!

The Hardware 400 Series provides solid double-braced stands for maximum stability and reliability. The SONOR 3-segment clamp offers maximum support for very little effort – whether for jazz or power drumming.

Batter and Resonance Heads – Made by REMO USA

Tom Tom: REMO Ambassador Clear
Snare Drum: REMO Ambassador White Coated
REMO Ambassador Resonant
Bass Drum: REMO Powerstroke 3 Clear
Front Head: REMO Powerstroke 3 Black with white SONOR Logo
